01 / OVERVIEW

The Read

A focused view of what is already working and the one change with the most leverage.

Overall rating

84%

KEEP

- ✓ Editing 94/100
- ✓ Composition 84/100

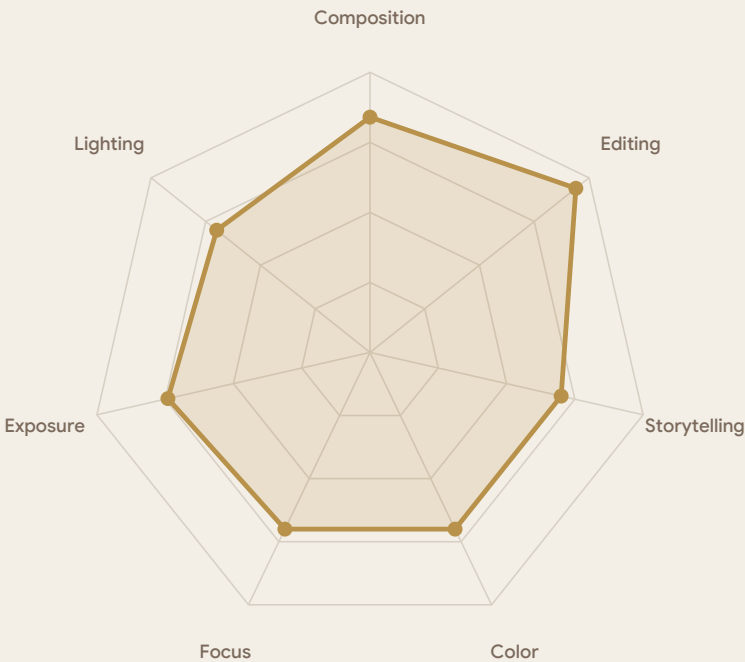

CHANGE ONE THING

- Storytelling 70/100

WHY THIS MATTERS

A restrained tonal transition gives the photograph its visual structure.

Category balance

02 / FRAME

How the Frame Works

The visual decisions shaping the photograph, translated into practical next actions.

84

/100

COMPOSITION**FRAME READ**

Analysis: The frame holds attention with a measured balance.

Next: Give the illuminated edge a little more breathing room.

70

/100

LIGHTING**FRAME READ**

Analysis: The image has a stable foundation in this area.

Next: Preserve the current result and refine only with clear intent.

74

/100

EXPOSURE**FRAME READ**

Analysis: The tonal range remains controlled.

Next: Lift the midtones only if the shadow detail matters.

70

/100

FOCUS**FRAME READ**

Analysis: The image has a stable foundation in this area.

Next: Preserve the current result and refine only with clear intent.

70

/100

COLOR**FRAME READ**

Analysis: The image has a stable foundation in this area.

Next: Preserve the current result and refine only with clear intent.

70

/100

STORYTELLING**FRAME READ**

Analysis: The image has a stable foundation in this area.

Next: Preserve the current result and refine only with clear intent.

94

/100

EDITING**FRAME READ**

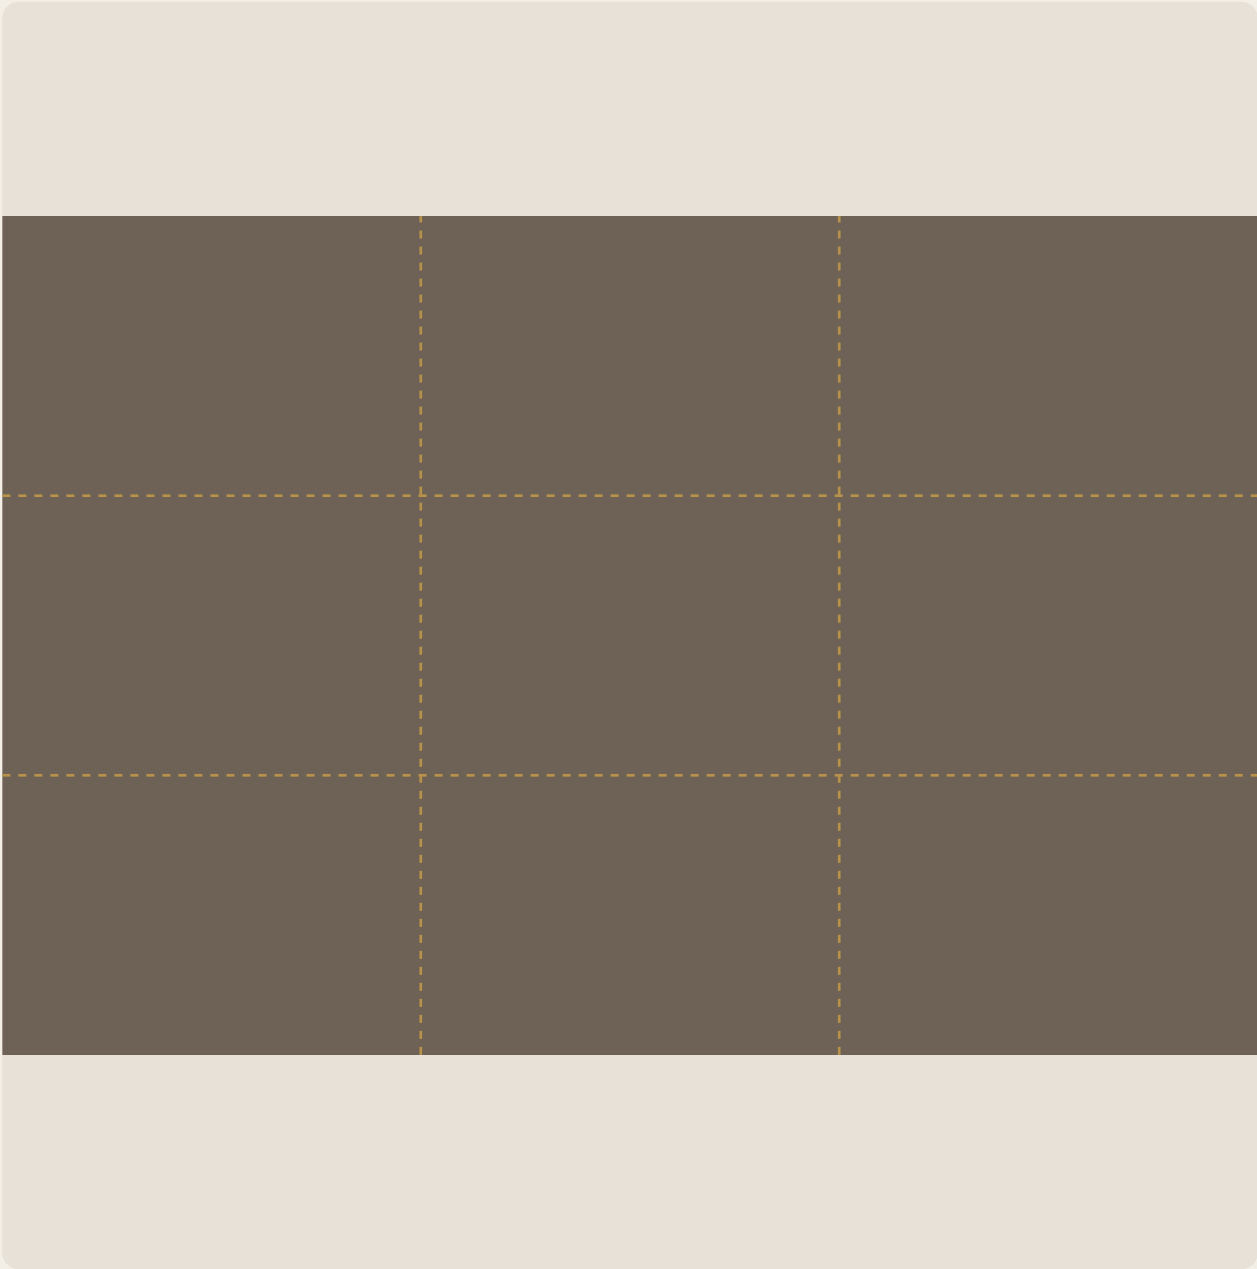

Analysis: The file needs only selective finishing adjustments.

Next: Use subtle local adjustments and compare against the original.

03 / EVIDENCE

Measured Evidence

Signals from the photograph that support the visual read.

Overlay positions are evidence-informed guides, not pixel-level object masks.

PERSONAL LESSON

Learn in Context

Turn the lowest score into one focused practice session.

BECAUSE YOUR LIGHTING SCORE WAS 70...

The direction or balance of light is not separating the subject as clearly as possible.

RECOMMENDED VIDEO

Shape the Subject with Light

Focused practice - 25 minutes

Practice after watching

Rotate the subject toward window light

Make three frames at different angles

Compare hard and soft light

CURATED NEXT STEPS

Personalized Resources

Selected for lighting and focus, your two highest-leverage areas.

Your YouTube learning path

Run a new photo analysis to generate score-based YouTube tutorials.

PRACTICE LOOP

Progress and Next Steps

Save this report as your baseline, then compare the next critique after focused practice.
